

And the Graduation Numbers Are In!

Global ADE is celebrating the achievements of the 76 graduates of Stephen Mazujian Middle School. The hard work of both these students and their teachers should be celebrated and we could not be more proud. We wish our graduates the best of luck as they move on to high school.

We are also looking forward to welcoming our new middle schoolers who just graduated from the primary schools supported by our partner, Spitler School Foundation (SSF). Over 100 students graduated from the Spitler Schools! This was the 10th graduation ceremony for SSF, and to help ensure success as they start middle school, SSF has made it a priority to equip the graduates with a new school uniform, school supplies, and a bicycle.

Finally, we are happy to share that 31 of our students passed the difficult 12th Grade National Exam, and 3 of these students received a full university scholarship from the Cambodian Ministry of Education!

It is amazing to see the impact education has had in the lives of these students and their families.

Thank you, Donors, for your dedication and passion to support the future of these students.

Congratulations Students and Teachers!

Donor Provides Funds for a Staff Retreat

“Never stop learning because life never stops teaching.” Global ADE teachers and staff, along with the teachers and staff of the Spitler School Foundation, took that quote to heart on a retreat this month. For this trip, they chose to visit the Cambodian provinces of Monkuliri and Ratanakiri. These sparsely populated provinces, located in the far Eastern part of the country, gave our staff the opportunity to learn from ethnic tribes residing in the region. These areas are also distinctive for their beautiful forests, waterfalls, and a cooler mountain climate. Additionally, because Global ADE and SSF staff were combined on the retreat, they enjoyed learning from each other, sharing experiences, and building relationships.

Global ADE looks forward to any opportunity it has to recognize our hardworking staff, especially the classroom teachers, who are dedicated and care deeply about the students they teach. We were very grateful for a donation this year from Irvin Spitler, who designated his donation for a well deserved staff field trip.

The teachers and staff from all schools, along with their families, send their THANKS to Mr. Spitler for his generous donation, which made this learning experience possible.

*Giving is not just about a donation.
It's about making a difference.*

Will you help us make a difference in the lives of these children for another year? Please visit our website to donate and make a direct impact in the lives of others.

Strengthening education in developing countries
